

Crispin Williams Flight Watch

I have been a balloonist for almost 50 years during which time I have flown nearly every type of balloon including gas balloons and, just a couple of times, a Rozier balloon like the one that Debbie and Mike will be flying across the Atlantic. Some years ago I, with Jacque Soukup and Ted Moore flew Jacque's Rozier balloon from the UK into France. A delightful flight which we could have continued for a day or two if we had had the correct maps! The joy of this type of balloon is that they can fly for days with relative ease. The difficulty with these long flights is that you are at the mercy of the weather, so your Met team are the key to a long and successful flight.
